To save Pete and PJ from the pirates, you've gotta be Goofy.

Pete and PJ thought it was a beautiful day for fishing on Spoonerville Island. That is, until Keelhaul Pete and his band of pirates caught them. Now Goofy and Max are off to the rescue through 5 puzzling, pirate-filled levels of castles, forests and caves. With your help, they'll make it to the pirate ship where Keelhaul Pete awaits and make him walk the plank.

When Goofy and Max meet the first boss, it's a real ball.

A potted palm can really keep the pirates in their place.

The orange pads are key to Goofy and Max making it through the knight.

EDITOR'S NOTEBOOK

As promised last month, here are some upcoming Comic Book Conventions that I am planning to attend, along with some of your favorite Archie artists and writers.

Dear Archie Readers,

Recently, I was invited to a Comic Book Convention in Kansas City, Missouri. The Kansas City Comic Book Club organizes two of these conventions each year. This was the third one I've attended and it gets better each time. The ARCHIE fans I met were great. There were over 4000 people that attended and it seems as if every one of them stopped by to say hello. One thing that always fascinates me is talking to parents and grandparents, who remember reading Archie Comics when they were growing up. Some still do.

Anyway, I want to thank the Kansas City Comic Book Club and all the people who attended that convention, for helping to make my visit a most memorable one.

NEW YORK COMICON

SAN DIEGO COMIC-CON

If you live or are visiting in any of these cities during these convention dates, stop by and say "Hello". We're always anxious to meet Archie fans and welcome new ones.

BASILISK

The legendary basilisk was a lizard-like monster with wings of a bird, tail of a dragon and a crest on top of its head. Its very breath and glance were supposed to be fatal. A little lizard living near streams and rivers in Central America looks just like this fabulous monster, except for the wings. Although the real basilisk lizard can't kill anything just by breathing on it or looking at it, it can do something the legendary monster couldn't. It can walk on water. When frightened, the basilisk lizard races on the surface of the water on its hind legs. A fringe of scales along its rear toes provides enough support to keep it from sinking.
